COMPONENT KIT — PLAYFUL BLOG

Made to bounce & boop

A squishy, sticker-happy interface language. Soft cream canvases, blobby shapes, a googly-eyed mascot, and controls that pop, wobble, and settle with a little spring.

Table

Action	Easing	Duration	Status
Modal pop	spring	240ms	Live
Card tilt	ease-out	220ms	Live
Page fade	linear	300ms	Dead
Toggle knob	bounce	420ms	Warn

Colophon

Set in **Fredoka** (display) and **Poppins** (body). Every control drives local component state — no network, no routing, just bounce.
